

The right stand and professional technology

Draw attention to your stand—we have the skills to put your ideas into practice. With our professional stand construction and technology services, you will attract the interest of visitors.

Professional stand construction services

Impress visitors with your stand—it's the way to get your company noticed.

As your competent and reliable partner, MEPLAN, a subsidiary of Messe München GmbH, can provide you with support for every aspect of stand construction. Whether it's an off-the-shelf solution or an individual design you're after, MEPLAN can handle the planning, construction and fitting out of your stand.

Choose the right stand system for you from over 40 different options at www.meplan.de. Or you can, of course, use our stand construction expertise to bring to life your own personal ideas and plans.

Technical services at the highest level

Messe München can provide you with maximum technological convenience and comprehensive technical services. All the halls at the trade fair have partial air-conditioning. All of the doors and entry points have air traps to provide protection regardless of the season or the weather. Power, water and air are supplied across the entire site via a functional combined floor duct system.

SAVE THE DATE

transport logistic

Date: May 4 - 7, 2021

Take advantage of innovative communication technologies in all the halls. Our ultra-modern IT infrastructure for data, speech and image transfer, including wifi, guarantees fast and top-quality contact with your business partners—both locally and across the world.

Technical services for your stand

We are happy to deal with any questions or orders regarding technology for your stand
